

JOURNAL OF THE EUROPEAN HONORS COUNCIL

The Journal of the European Honors Council (JEHC) invites submissions for a special issue on Complex Problems in Higher Education Talent Programs

Complex problems & Talent programs

The grand challenges of our time are so complex and/or multifaceted that they can best be addressed using innovative approaches, such as interdisciplinary or transdisciplinary approaches. Such approaches require crossing boundaries between perspectives and science domains. Talent programs in higher education (i.e. programs aimed at assisting talented students in accelerating their growth) can provide particularly fruitful environments in which students can prepare themselves for handling complex challenges by familiarizing themselves with inter-/transdisciplinary problem-solving.

This special issue of JEHC aims to provide a platform for educators, educational researchers and other stakeholders to showcase their efforts and share knowledge. The goal is to facilitate the exchange of both success stories and lessons learned that can help others to (further) develop their talent programs.

Important dates

Deadline for submitting your contribution: **April 30th 2023**

Planned publication: September 2023

Full call for
submissions

About the journal

The aim of the Journal of the European Honors Council (JEHC) is to share research results, knowledge and good practices related to talent development in higher education.

Peer-reviewed JEHC publishes peer-reviewed research papers, as well as notes on good practices or preliminary research results.

Open Access It is published in open access. The author(s) retain(s) copyright of their contributions. Contributions are distributed under the terms of the Creative Commons Attribution 4.0 International License (CC-BY 4.0). The Journal's contents are archived through PKP PN and through depositing at the National Library of the Netherlands / Koninklijke Bibliotheek.

Free of charge Publishing in JEHC is free of charge (no article processing fee or other submission charges).

European Honors Council (EHC)

JEHC is published by the European Honors Council (EHC): a council for all involved in talent development in higher education in Europe. For information, please see the European Honors Council homepage (www.honorscouncil.eu).
